

# COMPOSITES DESIGN & MANUFACTURING HUB

## A Collaborative Platform for Composites Learning, Teaching, and Research in the Cloud.

Join us at the American Society for Composites 31<sup>st</sup> Technical Conference (<http://mech.utah.edu/ASC2016/>) for a hands-on workshop, on September 18, from 7:00–9:00pm, on how to use [cdmHUB.org](http://cdmHUB.org) for composites learning, teaching, and research in the cloud. With the mission to convene the composites community to advance certification by analysis through hosting and evaluating existing and emerging simulation tools, cdmHUB is the premier online portal for composite resources, information, and networking for designers, manufacturers, researchers, engineers, and educators. This workshop features an overview of the cdmHUB cyberinfrastructure, and how to use cdmHUB for learning, teaching, and research. We will demonstrate how to use cdmHUB to develop and launch composites simulation tools. Please bring your laptop or tablet so that you can enjoy real-time of exercise all the collaborative functionalities of cdmHUB and immediate access of a vast array of composites resources.

### R. Byron Pipes

Director, Composites Design  
and Manufacturing HUB  
[bpipes@purdue.edu](mailto:bpipes@purdue.edu)

### Wenbin Yu

Associate Director, Composites  
Design and Manufacturing HUB  
[wenbinyu@purdue.edu](mailto:wenbinyu@purdue.edu)

### Johnathan Goodsell

Assistant Director, Composites  
Design and Manufacturing HUB  
[jgoodsell@purdue.edu](mailto:jgoodsell@purdue.edu)

## RSVP

Email Professor Wenbin Yu ([wenbinyu@purdue.edu](mailto:wenbinyu@purdue.edu)) for information and to register.

**Registration is open through September 15, 2016.**
