

Main Page

What are wiki pages?

Wiki pages are user-written articles on a range of subjects. Any contributor or a group of contributors can create (and own) new articles, and there can be multiple articles on the same wiki, each written by a different author.

Who can make a wiki page?

Anyone with an account can create a new article. When creating a new article, the initial contributor can choose to have a defined list of authors, all of whom can edit the page, or have an open, wiki-like format where anyone can contribute.

[Help: Templates](#)

Created on 19 Jul 2018

Templates make it easier for users to add new pages. Instead of requiring that each bit of new information be added by hand, templates have some text and structure already filled in. Templates are standard wiki pages except that they follow a convention that the name is prefixed with...

[Help:WikiPageNames](#)

Created on 13 Jan 2009

Wiki Page Names Wiki page names commonly use the CamelCase convention. Within wiki text, any word in CamelCase automatically becomes a hyperlink to the wiki page with that name. CamelCase page names must follow these rules: The name must consist of alphabetic characters only. No digits, spaces,...
